## A REMINDER OF YOUR PRIVATE OWNER'S HUMAN RIGHTS

We did not vote a government that is supposed to merely represent us mon-politicians to tell us what we can or camer do with CUR private property. This is PRIVATE or operty, and opart it can safety which is not impossible to determine via PRIVATE construction firms or PRIVATE architects as represent to BIG GOVERABLENT, what we PRIVATE owners do with one property is OUR benimers. You council people and politicians consisted and allowing such absolve and invasive laws do not like in our bosses, go mind the public reads or public buildings or public tabilities. We will not vote for political parties that allow absolve or of top laws to be inflicted upon us or allow councils more powers than they need, You have lost our confidence here, you do not appearant the people here on this issue either. Why should no vote for you? You have no right to issue only manifest surely the power we give you. Those powers will not vote for you? Absolute rubbits. Unless the neighbours have an issue with spoit sesthetics or do not wish to see their neighbours 'moving' up in society, there should be no interference in PPINATE LAND after all 1 Anyone can be aboved to build more floors so long as the proper expends, NOT NEICESSARIE, Y OOVERIGABLE ST EVENTE have determined that the structures will be secure 1 And 6 months is too long/Try 6 days, the extension itself could take 6 days to build for crying out loud ...

(3)... event ment seek planning permission and helding plans approval first.

When have citizens written into law that owners must leave permiss and building approval plans first? In 1900? This is 2015. Such amogant application of laws and inflicting WASTE by threatening to lear down what we citizens have built is unconcless. Problem parties are made of citizens and threat include ChihaPRS of PRIVATE PROPERTIES, the councils and paties allowing the councils have used their representative powers to interfere with building or extensions on PRIVATE bits. We citizens there will be an applicate party that makes sense if goates algorithm their councils will not Where are LOCAL COUNCIL.

BLECTIONS also??? These laws are a a throwback to medieval times and;

1) a brille taking opportunity
2) antagonatic to Human Rights
3) a display of two-cestany and abusine application of registrative powers
4) a display of two-cestany and abusine application of registrative powers
4) a display of the political parity's and councils lack of ability to change laws where necessary
and do notmake sense at all 1. Let us build and improve our homes I Let the architect and construction firm the responsible to
ensure that extensions are safe 1 The political party or council does not even live there 1.

ensure that entersions are is also find power, what is required that makes some that should be implemented as law is a requirement that a reputable local architect or reputable construction firms study and confirmation to determine that the extensions and structures are safe. Also that those those is not study will be held professionally responsible for any unforward incidents in the future. This senter that the extensions and structures are safe should be price controlled as well, and not more than 2-x of construction costs at most. The construction firms and architect should also be well established and have a long track record, i.e. not a shelf company tronting a bankingt owner. Dear Build Combier resident, study the terms Emissent Domain and Albedial and make this a consideration to the next MP or political party you vote for. Also study the information on the below sites and communicate with them for advice to stop the abuses:
